Aurora Libraries are closed New Year’s Day, Memorial Day, July 4th, Labor Day, Thanksgiving Day and Christmas Day (contact Security for after hours access).
Our Purpose

The Aurora Libraries are dedicated to providing quality health care-related information to all Aurora-associated administrators, medical and house staff, nurses, allied health professionals, employees and students for work-related patient care or research, or in support of affiliated educational programs. The Aurora Libraries also recognize and support the patient’s right to health care information.

The information-gathering services of the Aurora Libraries are provided to Aurora Health Care professionals and affiliated students because Aurora Health Care believes that information leads to better decision making which, in turn, contributes to cost-effective and high quality patient care.

Aurora Libraries Intranet Site (ALIS)

Hundreds of online journals, books and databases are available to you so that you can make good clinical and business decisions.

Access the Aurora Libraries (ALIS) site from iConnect. No password is needed at work. Your iConnect password is needed from home (www.Aurora.org). Full ALIS is also available for physicians through WHIN http://AuroraClinical.WHIN.net or Cerner (click on “globe” icon).
**ALIS Resources**

**ALICAT**
The AURORA LIBRARIES BOOK CATALOG is an online book and audiovisual catalog to the library collections of Aurora St. Luke’s Medical Center, Aurora Sheboygan Memorial Medical Center, Aurora BayCare Medical Center, Aurora Medical Center in Manitowoc County, Aurora Medical Center in Oshkosh, West Allis Memorial Hospital and Aurora Sinai Medical Center; Organizational Development; Nutrition Services; Women’s Health Care; Karen Yontz Centers; and the Vince Lombardi Cancer Clinics.

**A-Z Books**
Over 330 books online — medical texts in all specialties, nursing books, dictionaries, quotation books, coding manuals and books of the major religions from Churchill Livingstone (MD Consult), Lippincott Williams & Wilkins (OVID), Mosby (MD Consult), WB Saunders (MD Consult) and CREDOreference.

**A-Z Journals**

**Consumer Health Databases**

**Health and Wellness Resource Center**
Produced by Thomson Gale, the Health and Wellness Resource Center includes lay level health information from pamphlets, textbooks, popular magazines and newsletters, and some professional journals. Coverage is the most recent four years which often includes the full text.

**MedlinePLUS**
Authoritative consumer information from the National Library of Medicine, National Institutes of Health and other government agencies, and national associations including an illustrated medical encyclopedia, interactive patient tutorials, dictionaries, drug information and the latest medical news.

**Well Connected**
Comprehensive high school level consumer reviews on common diseases and wellness issues reviewed by Harvard Medical School and Massachusetts General Hospital.

**Dictionaries/General Reference**

**CREDOreference**
It’s all here: Dorland’s Medical Dictionary, Dictionary of Medical Acronyms & Abbreviations, Rawson’s Dictionary of American Quotations, the Bible, the Qurán, U.S. Census, the Penguin Rhyming Dictionary, Bender’s Dictionary of Nutrition & Food Technology, the Columbia Encyclopedia, Roget’s Thesaurus, Collin’s Spanish Dictionary, the Dictionary of Business and much more.

**Differential Diagnosis Database**

**DxPlain**
DxPlain is a decision support system which uses a set of clinical findings to produce a ranked list of possible diagnoses. It provides diagnostic information on over 2000 diseases.
Drug Databases

**MICROMEDEX/Thomson Clinical Expert** is an up-to-date, unbiased, and referenced drug information system including information on FDA approved drugs, OTC preparations, investigational and foreign drugs, and herbal and dietary supplements. Poisoning management, drug interaction warnings, drug identification help, and disease management information is included. Lay level information is provided in English and Spanish.

**The Medical Letter**
The Medical Letter on Drugs and Therapeutics offers unbiased critical evaluations of drugs with special emphasis on new drugs.

**Natural Medicines Comprehensive Database**
Natural Medicines Comprehensive Database is recommended by our pharmacists as the best source for drug-herb, herb-herb interactions, and for herbal product brand names.

Evidence-Based Medicine Preappraised Reviews

**ASC Surgery**
Recommendations on current surgical care with great illustrations from the American College of Surgeons.

**Cochrane Systematic Reviews, ACP Journal Club, DARE (OVID EBM)**
Search all of these databases, plus Cochrane Clinical Trials at once, or individually.

**DISEASEDEX (MICROMEDEX)**
DISEASEDEX supports disease management and treatment decisions in ambulatory and inpatient care settings.

**UpToDate**
Easy-to-use expert-based disease information (adding evidence rankings to all reports by 2008) from physicians at Harvard Medical School and other top institutions. Good depth in Internal Medicine, Family Practice and Obstetrics and Gynecology.

**Zynx**
Medical management information with evidence grading for over 100 high volume, high-cost conditions.
General/Business Information
ProQuest Newspapers, Business Source Elite, ERIC, and other state-provided BadgerLink databases.

MEDLINE (OVID)
MEDLINE is a National Library of Medicine database of medicine, dentistry, nursing, veterinary medicine, and the preclinical sciences that indexes over 5,000 of the world’s biomedical journals. Coverage is from 1950 to the present. Links to our over 2,180 online journals are available from within a subject search and the ORDER feature allows you to easily order what is not online from the Aurora Libraries.

Nursing Database
CINAHL (OVID)
The cumulative Index to Nursing and Allied Health Literature indexes over 1,700 nursing and allied health journals, publications of the American Nurses’ Association and the National League for Nursing, relevant articles from MEDLINE and other journals. Coverage is from 1982 forward.

Psychology/Psychiatry Database
PsycInfo
PsycINFO covers the field of psychology and related disciplines from 1872 forward from journals, books, dissertations, and technical reports.

Services

Reference Service and Database Searches
Call your Librarian for a quick fact from a directory, dictionary, statistical source, or textbook. Aurora Librarians have access to hundreds of biomedical, business, education, and news databases through several vendors. A list of articles on your topic can be provided by the Librarian to meet your time frame.

Interlibrary Loan
Library staff can obtain materials not available in-house through a nationwide resource-sharing network. Articles may be faxed or emailed.

Current Awareness Service
For any topic in which you have a continuing interest, your Librarian can create and save a search strategy in an appropriate database and mail or email monthly updates to you.

The Table of Contents for Administrators is a bimonthly current awareness service for Aurora managers, directors, and administrators. There is also a Table of Contents for Rehab and Nursing. Links to tables of contents for specific journals can also be emailed to you.

Verification of Bibliographies
Given one week’s notice, your Librarian will verify your list of references for the article or book chapter that you are writing.

Photocopy Services
Photocopy machines are available in each Library. Aurora-affiliated employees, medical staff, and students may use the photocopy machines or printers for work-related copying at no charge. Personal copying or copying by non-affiliated users may be done at .10¢/page.
Book and Journal Ordering
All Aurora magazine subscriptions are ordered through Linda Rogge at (414) 649-5972 at the Medical Library at Aurora St. Luke’s Medical Center. For self service, use the Magazine Ordering site on iConnect. Department book orders, including the ISBN number, are sent directly to the Purchasing Department at the Heil Center.

Ask A Librarian
Patients, family members, and the community are welcome to visit the Aurora Libraries to gather information concerning newly diagnosed conditions or about disease prevention and coping skills. Brief packets of information may also be provided by fax, mail or email. Material is for informational purposes only and should not be taken as medical advice or interpretation. Patients and families may access their personal email at any Aurora Library.

Borrowing Materials

Privileges
All employees and physicians of the Aurora Health Care system have borrowing privileges. Individuals must complete a form and be entered in the Aurora Libraries database to check out materials. Print your name, department, and phone number on the check-out card. Library staff will provide date due cards to insert in the book pockets.

Loan Material
Books or audiovisuals not designated as reference materials (R, RLO, REF) may circulate for 14 days. Journals do not circulate; certain exceptions made at the discretion of the library staff, such as for making slides.

Renewal
Library material may be renewed for an additional loan period unless it is requested or reserved by another patron.

Lost Material
Books, journals, audiovisuals, etc. are the responsibility of the borrower and if they are lost they must be replaced by the borrower. Overdue notices will be sent when materials are not returned on time. If the item has not been returned after three notices, the cost of the item and a $10 processing fee will be charged.

Collection

Over 13,000 books, 330 online
520 active print journal subscriptions, 2,180 online
Over 1,800 audiovisuals

Statistics

3,540 Information requests/year
20,580 Articles provided for customers/year
18,132 Material shelved
768 Patient/community questions/year
282,072 Visits to the Aurora Libraries Intranet Site (ALIS)*

* 2006 statistics
