Our Prayer

Our Prayer

Father - may we always be aware that man was created in Your image and that You have given us everything which raises us above the beasts.

You have given us knowledge and wisdom and power over all things on earth. To each of us You have given special talents.

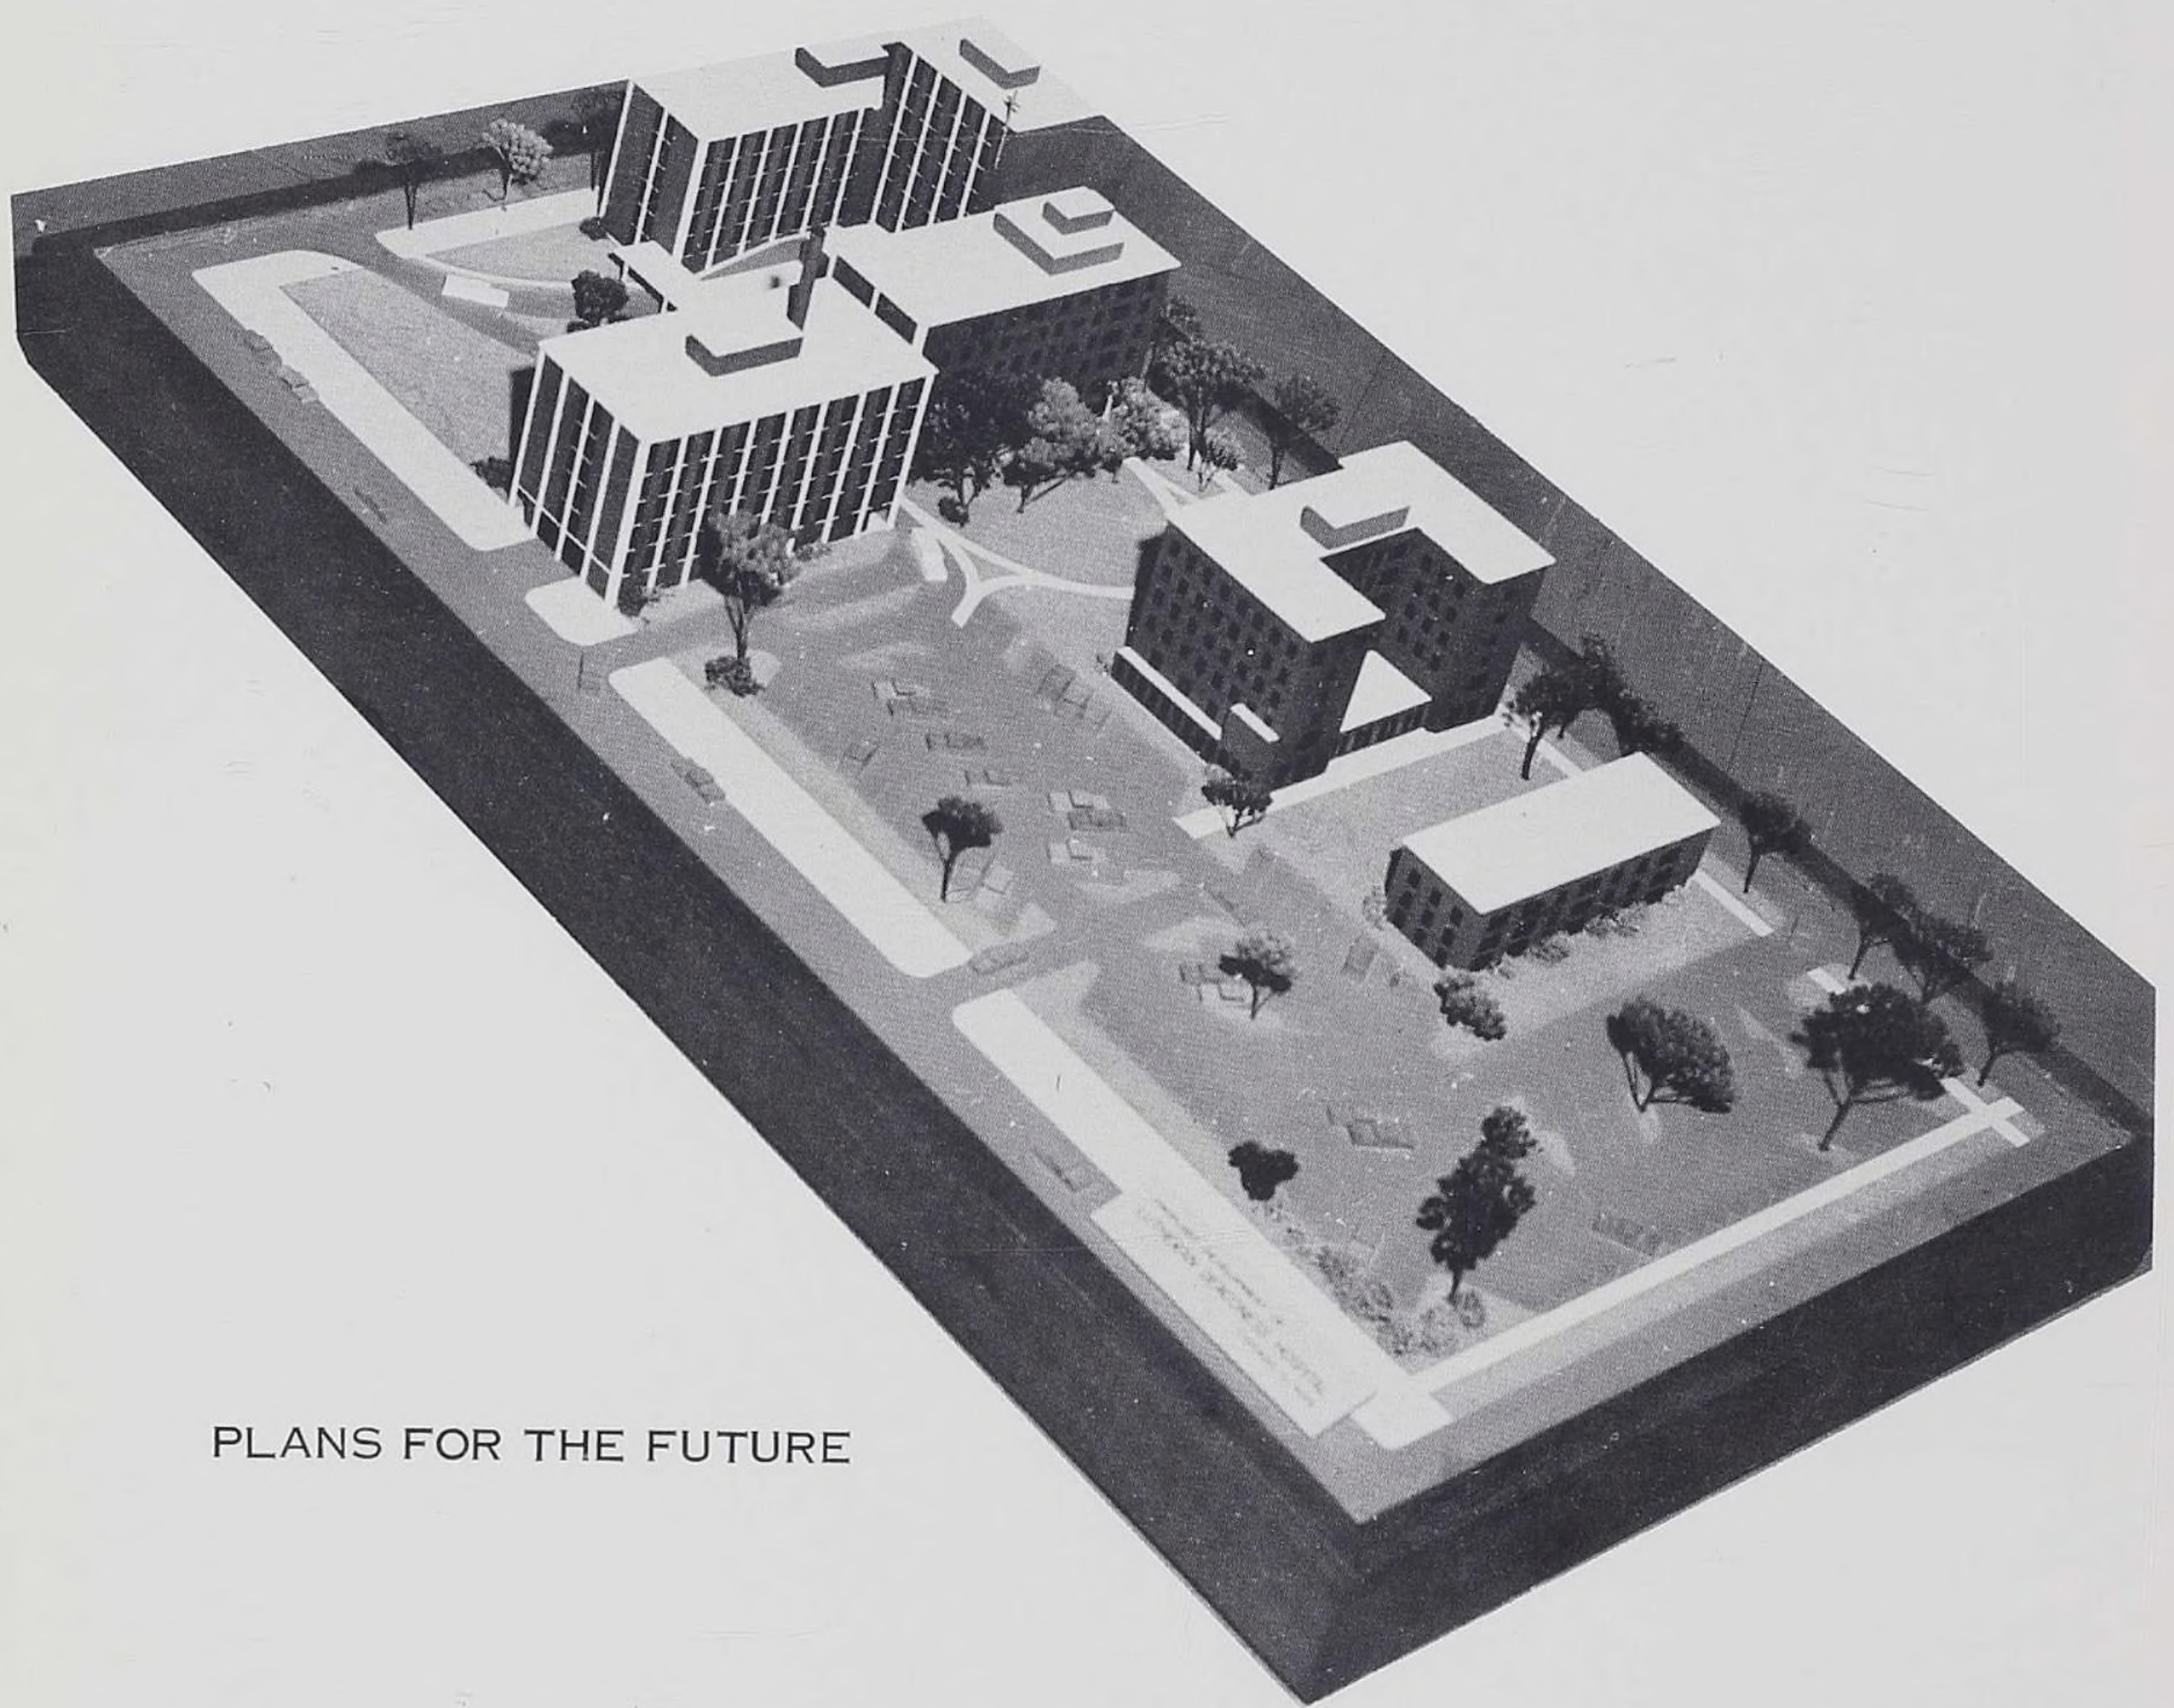

We who here use Your gifts to serve those who give birth and are new born, those who are sick in mind, body and soul, we ask for the strength to so conduct ourselves as to be pleasing in Your sight and to walk with dignity among men.

We pray that we may always serve the total person - realizing that man does not live by bread alone.

We ask that we may be proud of our opportunity to serve but humble in the knowledge that our efforts are only aids to Your divine healing power. The final decision is Yours and Yours alone to make. Thy Will Be Done.

We pray that we may use our talents in this service with the special grace which comes to us through the knowledge of the life and teachings of Your Son Jesus Christ and the constant association of the Holy Spirit. Amen!

Senior Class . . .

Reflecting on that day - three years ago - when we were accepted into the School of Nursing we become aware of many things. We have grown professionally, personally, and spiritually.

Professionally we have grown because of what we have learned. We confidently care for patients and help them plan for the future.

Our personal growth has developed with the help of the doctors and the nursing staff. We will cherish the memories of friendships with our classmates, housemothers, and hostesses.

The personal concern of the Deaconesses has helped us to grow spiritually. Their tireless energy and dedication will always be an example to us all.

We value the teaching and guidance our instructors have provided. They have helped us in reaching our goals.

We will be forever thankful to our parents. It was their understanding and motivation which we needed so often.

All of these people will be remembered for their part in our growth. We hope to reflect unto others the love and understanding shown to us.

Class Prophecy . . .

YES, HERE WE ARE.....THE CLASS OF 1961.....IN 1985!!!

Sylvia Adams with her portable anesthesia machine (patent 1972) in her scrub gown pocket, is taking a coffee break at the Civil Air Patrol Medical Center.

Phyllis Anderson and her doctor manage to keep their mobile dispensary running in spite of some of those dog paths of African highways.

Sandra Ball, international stewardess for the United Nations' private airlines is presently perfecting her French at the Sorbonne.

Julie Bartelson has just presented her final copy of *Koepke's Kitchen* to the publisher. *Pat Pauling* is helping her husband publish a new edition of *Nurse, Pastor*,--oh, yes! and *Betty Brecheisen* has found that you must economize and make it "cheaper by the dozen" in a parsonage.

Neither rain nor snow can keep *Marianne Daft* from making her daily rounds as sole public health nurse of Oconto Falls.

Florence Hageman has just received her latest Paris attractions for display at her exclusive shop in Elmhurst, namely--*Florence's Fashions*.

Carol Helom, PM Supervisor of Matza Memorial Hospital is kept busy getting stat orders for Milk of Mag.

Atghans, shawls, sweaters, and mittens, these are but a few of the items we find in *Barb Hoppe's* knitting room. On one wall is a pattern case of her own fashions, including that nurse's uniform---yes knit!!

Liz Iverson is in charge of student health service at Purdue University while her husband is still working on his Doctor's degree in Civil Engineering.

On the course of A. P. C. and A. S. A. Street in Moline we find Johnson's Drugs, and the chief pharmacist, *Marcia Johnson*.

We knew her figure would get her somewhere! *Ruth Knudson* suns on Waikiki Beach as private secretary? Nurse? of Tom Lopaka.

Irene Kopanke, Medical examiner for the World Health Organization finds much profitable work in Berlin--East and West. Yes, they're still two.

Jean Leasum, now Mrs. Bucks of Greenback U. S. A. enjoys her mansion (with all the trimmings) overlooking Silver Lake.

Paula Martens, executive secretary of the ANA, is kept busy informing students of the functions, standards, and qualifications for practice of the general duty nurse.

Pat Pauling is helping her husband publish a new edition of *Nurse, Pastor*,--oh, yes! and *Patient*.

Janet Plowman and her husband, Lee, have finally seen their way clear to visit their Swedish relatives--by chaperoning an annual Senior Class trip to Sweden.

Jean Porstner, sugery instructor, supervises the scrubs of her students from her custom-made observation deck which is attached halfway up the Mayo Stand.

Charlotte Preiss, still perfecting the "new" isolation technique, enjoys her position as Head Nurse of Cribside.

Pixie Penny Pross is leading cover girl for Medic Magazine. The smallest nurse's cap doesn't even feel lost!

On the corner we find "Quik Energy Haven" owned by *Mary Lou Reynolds*. They serve fresh orange juice--hand squeezed!

Barbara Routheaux still has her trim look as exercise instructor at the Victoria Tanny gym. Incidentally, I wonder how she wears her hair. Could it be ankle length?

The surgery schedule at Mayo Clinic reads:

6:00 A.M. Ankleplasty.....*Dr. and Dr. Selander*

8:00 P.M. Bunionectomy.....*Dr. and Dr. Selander*

.....quite a full schedule?

We invite you to visit Joy's Chicago's famous pizzeria. It seems *Joyce Szpajda* couldn't decide which it would be, an Italian Village or a Polish Pantry--wonder how she reached her decision?

Class of 1962

MRS. CARNA SCHROEDER, Class Advisor

Our Junior year what memories it holds! Moving from LDH to LGH has entailed adjusting to a different environment, learning new rules and policies, meeting many people, and accepting added responsibilities.

Scrubbing in surgery and witnessing a birth are only two of the exciting "first-time" experiences we have enjoyed. Studies and bookwork, parties and other social events, clinical experience and classes--all are a part of our curriculum.

A year has gone by--one in which we have grown in wisdom and matured in the light of new experience. Now we are anticipating our senior year as one in which we will continue to grow under guidance.

Sophomore Class . . .

A year ago---our lives changed as we walked the steps of L. G. H. for the first time. Let us reminisce about some of our memories for that first year.

We had studying to an extent we had never before known. We remembered the tests, the assignments, and the many tears of frustration, but the sounds of laughter are also vividly recalled.

All of this was the prelude to our goal of capping day. After capping, our sophomore term brought with it increased privileges and the challenge of greater responsibility and clinical experience.

Our class unity was further strengthened as we all participated in a fashion show. This we hope will become a tradition at L. G. H.

These are only a few of the many highlights of that most impressive and memorable first year. Our most outstanding memories, however, are those which cannot be told, only felt. Above all, we have an unexplainable feeling that we are learning to help others.
