43rd Annual Scientific Day List of Events

May 24, 2017 Aurora Conference Center 10:00 a.m. - 4:55 p.m.

WELCOME AND OPENING

REMARKS – *Succeed*

10:00 to 10:05 a.m.

Dennis J. Baumgardner, MD
Chair, Scientific Day Committee

ORAL PRESENTATION

SESSION I – *Succeed*

10:05 to 10:20 a.m.

Sensitivity of Current Methods for Diagnosing and Documenting Metabolic Syndrome within a Large Community-Based Health Care System
Tiffany Mullen, DO

10:20 to 10:35 a.m.

Impact of Obstructive Sleep Apnea Severity on Cardiac Events in Patients with Normal or Prolonged Ventricular Repolarization
Lauren M. Richards, MD

10:35 to 10:50 a.m.

Improved Service Efficiency Improves Racial Disparity in Diabetic Care
Abel Irena, MD, MSc

10:50 to 11:05 a.m.

Characteristics Associated with One-Year Mortality Following Diagnosis of Type II Myocardial Infarction: A Large Tertiary Care Experience
Raj D. Patel, MD

11:05 to 11:20 a.m.

Generation of a Patient-Derived Brain Metastasis Breast Cancer Cell Line via Novel Orthotopic Injection Placement and Serial Mouse Transplantation to Develop PDX Mouse Model
Amber L. LaCrosse, PhD

11:20 to 11:35 a.m.

Patients with Improved Left Ventricular Ejection Fraction without Implantable Cardioverter Defibrillator May Continue to be at High Mortality Risk Despite Optimal Medical Management
Kanwar Y. Singh, MD

RIESELBACH DISTINGUISHED

PAPER SESSION I – *Succeed*

11:35 to 11:55 a.m.

Incremental Value of Estimated Glomerular Filtration Rate in Improving Stroke Risk Stratification in Patients with and without Atrial Fibrillation Deemed Low Risk by CHA2DS2VASc Score
Susan Olet, PhD

LUNCH BREAK

11:55 a.m. to 12:30 p.m.

POSTER VIEWING

AND JUDGING

12:30 to 1:30 p.m.

GENERAL POSTERS –

Believe/Empower

Foley Catheter Placement for Induction of Labor in the Setting of Ruptured Membranes
Farhiyo A. Abdulle, MD

Disulfiram Enhances Palbociclib and Abemaciclib Activity through MGMT and CDK4/6 Inhibition in Breast Cancer Cells
Santhi D. Konduri, PhD

Evaluating the HIV Continuum of Care within a Large Integrated Health System
Michael J. Williams, PharmD

Drug-Eluting Devices in Femoropopliteal Disease: Trends of Use and Patient Outcomes
Daniel Ortiz, MD

Echocardiographic Predictors of Elevated Gradients after Transcatheter Aortic Valve Replacement for Failing Bioprosthetic Aortic Valve Replacement
Robert Richmond, DO

Decreasing Time to Broad Spectrum Antibiotics for Septic Patients in the Emergency Department
Joseph J. Zieminski, PharmD

Mechanisms of Left Ventricular Thrombus Formation in Heart Failure with Reduced Ejection Fraction: Novel Insights from 2-D Speckle Tracking Echocardiography
Dhruv Chawla, MD

Efficient Approach for Atrioventricular Junction Ablation with Pacemaker Implantation
Mohammed Djelmami-Hani, MD

Racial Differences in Weight Loss and Its Impact on Cardiovascular Outcomes after Bariatric Surgery in Patients with Morbid Obesity
Ahmed Dalmar, MD

Outcomes in Patients Undergoing Cardiac Catheterization and Therapeutic Hypothermia after Cardiac Arrest
Dhaval Desai, MD

The Risk of Adverse Coronary Events is higher in Patients with Severe Obstructive Sleep Apnea Following Percutaneous Coronary Intervention
Amina Adil, MD

Challenges in Delivering Refugee Health Services
Fabiana Kotovicz, MD

Identifying and Targeting Age-Related Colorectal Cancer Screening Rate Disparities in Family Medicine Residency Clinics
Jonathan J. Blaza, MD

Use of Viabahn Endograft for Repair of Popliteal Artery Aneurysm: Largest Single Center Experience
Shankho Ganguli, MD

Influence of Differential Calcification in the Descending Thoracic Aorta on Aortic Pulse Pressure
Mirza Mujadil Ahmad, MD

Normal Diameter of the Ascending Aorta in Adults: The Impact of Stricter Criteria on Selection of Subjects Free of Disease
Ji Ae Yoon, MD

Variations in Practice of Apnea Test for Brain Death: Review from a Multi-Hospital Health Care System
Jeffrey Stein, DO

Effects of Revision Surgery on Grade of Adverse Local Tissue Reaction Following Recall of a Modular Hip Implant
Joseph F. Davies, MD

Use of Urine Blastomyces Antigen Test in an Integrated Medical System
Dennis J. Baumgardner, MD

Family Practice Resident Expectations by Year from Faculty and Resident Perspectives: A Quality Improvement Initiative
Alyssa Krueger, DO

The Lifestyle Initiative: An Innovative Coaching-Based Quality Improvement Study to Improve the Health of Aurora Health Care Caregivers and Family Members
Tiffany Mullen, DO

Improving Obstetrics in Family Medicine Residency Clinics: A Quality Improvement Study
Garima Chawla, DO

Brain Imaging in Older Patients with Delirium
Laila M. Hasan, RN

Development of a System-Wide Controlled Substances Diversion Risk Assessment
Travis J. Carlson, PharmD

Quality Improvement Study for Postpartum Hypertension Readmissions
Molly K. Lepic, DO

JUDGED POSTERS –

Create/Discover

Evaluation of Socioeconomic Factors and Achievement of Sustained Virologic Response in the Treatment of Hepatitis C Virus
Erika Aldag, PharmD

Remote Hemodynamic Monitoring Program: A Single Center Experience in Reducing Heart Failure Admissions
Christina R. Sauld, MSN

Robustness of a Newly Proposed Risk Schema for Lymphatic Dissemination in Endometrioid Endometrial Cancer
Danielle M. Greer, PhD

FMT Placed by Colonoscopy: Systematic Review and Meta-Analysis
Nadia Huq, MD

Six Year Experience of Influenza Vaccination as a Condition of Employment for a Large Regional Healthcare System
John R. Brill, MD, MPH

Recovery of Left Ventricular Mechanics Following Transcatheter Aortic Valve Implantation: Long-term Follow-up in Patients with Four Subtypes of Aortic Stenosis
Daniel Harland, MD

Positive Impact on Patient Satisfaction and Caregiver Identification Using Team Facecards: A Quality Improvement Study
Nicole M. Martin, MD

Transcatheter Aortic Valve Replacement Reduces Major Recurrent Gastrointestinal Bleed in Severe Aortic Stenosis
Khalil Odeh, MD

Diabetic Patients are at Higher Risk of Cardiac Arrest but with Low Cardiac Arrest Associated Mortality
Rafath Ullah, MD

Evaluation of Vancomycin-Resistant Enterococci Colonization and Infection Rates in Adult Liver Transplant Patients
Garrett W. Fouth, PharmD

Characterizing Recurrence Following Hybrid Ablation in Patients with Persistent Atrial Fibrillation
David Kress, MD

Patients with Obstructive Sleep Apnea have Improved Survival Outcomes after In-Hospital Cardiac Arrest
Zoe Heis

Single Center Comparative Outcome Study on Early vs. Late Intervention in Non-ST Segment Elevation Myocardial Infarction
Kambiz Shetabi, MD

The Outcome of Typical Atrial Flutter Ablation in Patients with a History of Atrial Fibrillation
Firas Zahwe, MD

Assessment of Chronic Disease to Determine Appropriateness of Implantable Cardioverter-Defibrillator Therapy
Bilal M. Omeri, MD

Hypertrophic Cardiomyopathy is associated with Dilated Sinus of Valsalva: A Case-Control Study
Afshan Husain, MD

Relative Associations of Age, Height and Weight on Sinus of Valsalva and Mid Ascending Aorta: An Imaging and Epidemiology Study
Mirza Nubair Ahmad, MD

The Role of Echocardiography in Predicting Implantable Cardioverter-Defibrillator Discharge
Wajih Askar, MD

Dilated Mid Ascending Aorta in Hypertrophic Cardiomyopathy is Associated with Dynamic Left Ventricular Outflow Tract Obstruction and Not with Genetic Abnormalities
Lily Walson, MD

Peroxisome Proliferator-Activated Receptor (PPAR)- α Agonist as a Novel Therapeutic to Prevent Oxidative Stress and Atrial Fibrosis
Farhan Rizvi, PhD

Impact of Primary Care Provider Education on Appropriate Level of Opioid Prescription for Chronic Noncancer Pain
Alison Perry, DO

Statin Therapy Transforms Cardiac Fibroblast Function in Human Failing Heart
Gracious R. Ross, PhD

Effect of a New Enhanced Fluoroscopy Technology (Valve ASSIST2) on Outcomes in Patients Undergoing Trans-Catheter Aortic Valvular Replacement
Ali Shafia, MD

ORAL PRESENTATION

SESSION II – *Succeed*

1:30 to 1:45 p.m.

Racial Ethnic Disparities in Malignant Phyllodes Tumors of the Breast: Analysis of the National Cancer Database, 1998-2012
Judy A. Tjoe, MD

1:45 to 2:00 p.m.

Initial Experience with a Robotically-Guided Optical Platform in Spine Surgery: Feasibility, Safety, and Clinical Applications
Sarika Walia, MD

2:00 to 2:15 p.m.

The Significance of Cardiac Troponin I in Acutely Decompensated Diabetes in the Absence of Acute Coronary Syndrome
Abdulwahab Hritani, MD

2:15 to 2:30 p.m.

Circulating MicroRNA as Non-Invasive Biomarker for Postoperative Atrial Fibrillation: Gender Differences in Predicting the Outcome
Farhan Rizvi, PhD

2:30 to 2:45 p.m.

Clinical Efficacy of SoftSeal-STF Hemostatic Pad with Short Hold Time Compared to Traditional Manual Compression after Transfemoral Catheterization
Nolan Machernis, MD

2:45 to 3:00 p.m.

Pediatric GI Endoscopic Procedures can be Safely Done in Ambulatory Surgery Centers
Ibrahim Habib, MD

BREAK

3:00 to 3:15 p.m.

ORAL PRESENTATION

SESSION III – *Succeed*

3:15 to 3:30 p.m.

How Long is Too Long? Management of the Third Stage of Labor in Second Trimester Deliveries
Jessica A. Behrens, DO

3:30 to 3:45 p.m.

Alcoholic Cardiomyopathy is Characterized by Increased Sensitivity of Mitochondria to Permeability Transition Pore Opening
Larisa Emelyanova, PhD

3:45 to 4:00 p.m.

Restless Legs Syndrome is an Independent Risk Factor for Heart Failure with Preserved Ejection Fraction
Zoe Heis

RIESELBACH DISTINGUISHED

PAPER SESSION II – *Succeed*

4:00 to 4:20 p.m.

Hormonal Contraception and Therapy Use in Breast Cancer Survivors: Do Recurrence and Mortality Risks Increase?
Sara M. Stanenas, DO

SPECIAL PRESENTATION - *Succeed*

4:20-4:45 p.m.

Clinical Innovations in Neurosurgery
Aurora Neuroscience Research Team

AWARDS – *Succeed*

4:45 p.m.
