Scientific Day

List of events

Thursday, May 28 • 10 a.m. to 4:45 p.m. • Aurora Conference Center

Welcome and Opening Remarks

10 to 10:15 a.m.

Dennis J. Baumgardner, M.D., *Chairman, Scientific Day Committee*

Oral Presentation Session I – Sycamore

10:15 to 10:30 a.m.

Automatic respiration motion compensation in CT-fluoroscopy image fusion
– David Krum, M.S.

10:30 to 10:45 a.m.

Stent fracture-associated restenosis in bare-metal stents compared with drug-eluting stents
– Paul Pienkos, M.D.

10:45 to 11a.m.

Prevalence of periodic fever, aphthous stomatitis, pharyngitis and cervical adenitis syndrome (PFAPA): eastern Wisconsin – Mona Ranade

11 to 11:15 a.m.

Quality improvement of blood pressure measurement – Anthony Caceres, M.D. (presented by Ahmed Dalmar, M.D.)

Rieselbach Distinguished Paper Session I – Sycamore

11:15 to 11:45 a.m.

Blastomycosis: Sand and water, seasons and reasons – Dennis Baumgardner, M.D.

Lunch Break

11:45 to 12:15 p.m.

Poster Viewing and Judging

12:15 to 1:45 p.m.

Category: Work in Progress – Buckeye I

Maximizing compensation from pharmaceutical care services in an outpatient pharmacy
– Kristina Phillips, Pharm.D.

Barriers to the initiation of group prenatal care for adolescents in a school-based setting
– Jackie Tillett, C.N.M., N.D.

Assessment and implementation of best practices to improve narcotic and sedative safety
– Jessica Bellone, Pharm.D.

Assessment, development and implementation of strategies to improve pharmacy order entry at Aurora St. Luke's Medical Center (ASLMC)
– Megan Vingers, Pharm.D.

Quantify percentage of order entry that triggers alerts and implement reduction strategies
– Angie Weitendorf, Pharm.D.

Development of an order capacity control system
– Ashley Feldt, Pharm.D.

Implementation of a peer evaluation system in a decentralized pharmacy department
– Emma Hews, Pharm.D.

Evaluation and assessment of insulin pen devices for inpatient hospital use
– Laura Beres, Pharm.D.

Implementation of anticoagulation safety practices: A national patient safety goal
– Courtney Morris, Pharm.D.

Improving medication safety through utilization of smart pump data – Peter Stuessy, Pharm.D.

Category: Case Reports – Buckeye I

Cardiac manifestations from non-FIP111-PDGFRA associated hyper eosinophilic syndrome in a 13-year-old African American boy
– Cindy Salm, M.D.

LYME meningitis – Ismael Tura, M.D.

Identity crisis of B cells: Lymphoplasmacytic lymphoma in transformation to multiple myeloma – Maria Beg, M.D.

Brevibacterium empyema in an elderly patient – Summer Curtis, P.A.-C.

Category: Judged Posters – Ash

Microsatellite instability testing on colonic tumors as a means to screen for Lynch Syndrome
– Jonathan Horwitz, D.O.

Metabolic syndrome effect on redo atrial fibrillation catheter-based ablation
– Samer Shuaib, M.D.

Barretts esophagus: Biopsy protocols and documentation: Room for quality improvement – Saeid Goshtasbi, M.D.

A more rigorous clinical algorithm for the management of suspected pulmonary embolism in emergency room patients to reduce diagnostic imaging without decreasing sensitivity
– Hemant Shah, M.D.

Registration accuracy of CT-fluoro fusion is comparable to 3D electroanatomic mapping using CT-merge – John Hare, B.S.

Utility of peak cardiac Troponin I in risk stratification after primary percutaneous coronary intervention for ST-segment elevation myocardial infarction – Naoyo Mori, Ph.D.

Five-year outcomes of diabetics undergoing exercise stress testing compared to non diabetics, stratified according to the Duke Treadmill Score
– Lisa Schmitz, D.O.

Does inferior vena cava filter improve mortality in patients with pulmonary embolism?
– Masood Ahmed, M.D.

Outcomes of renal artery stenting in patients with severely impaired renal function
– Suresh Ramamurthy, M.D.

Effect of visual contrast and complexity of food tray in Parkinson's disease – Ariba Khan, M.D.

Blastomycosis in urban southeastern Wisconsin – Melissa Lemke, M.A.

Heparin bonded Viabahn Stent Graft: Incidence of stent thrombosis and HIT
– Nader Chadda, M.D.

Comparing long-term outcomes between drug-eluting and bare-metal stents in the treatment of cardiac allograft vasculopathy
– Tonga Nfor, M.D.

Long-term patency rate of the Viabahn stent-graft for lesions TASC class C and D of the superficial femoral artery
– Andleeb Bangash, M.D.

Treatment of vertebral artery and restenosis: Efficacy of drug eluting stents
– Athar Saeed, M.D.

Prone whole breast irradiation using 3D conformal radiotherapy in women undergoing breast conservation for early disease yields high rates of excellent-good cosmetic outcomes
– Carmen Bergom, M.D., Ph.D.

ACOG Practice Bulletins: Original vs. replaced guidelines – Patricia Perfetto, M.D.

Recurrent shoulder dystocia: A review
– Jemel Bingham, M.D.

Maintenance tocolytics for preterm symptomatic placenta previa: A review – Diwata Bose, M.D.

Osteoporosis screening improvement project
– Elzbieta Perry, M.D.

Dual-operator angiography followed by percutaneous coronary intervention is associated with higher procedural complications compared to single – operator procedures: A quality-of-care study – Mohamed Rahman, M.D.

Change in health-related quality of life following resective epilepsy surgery – Jennifer Kroll, B.A.

Clinical and angiographic outcomes in patients with ST elevation myocardial infarction undergoing single versus multiple vessel PCI
– Faisal Hayat, M.D.

Clinical outcome of elderly patients with primary percutaneous coronary intervention for acute ST-elevation myocardial infarction
– Fuad Jan, M.D.

Exercise capacity and echocardiographic evaluation of right heart indices in patients on long-term ambrisentan therapy for established pulmonary arterial hypertension
– Louie Kostopoulos, M.D.

Oral Presentation Session II – Sycamore

1:45 to 2 p.m.

Impact of micropuncture on vascular access-site-related complication rates in percutaneous coronary interventions
– Louie Kostopoulos, M.D.

2 to 2:15 p.m.

Assessment of anticoagulation strategies in peripheral percutaneous intervention
– Imran Sheikh, M.D. (Presented by Masood Ahmed, M.D.)

2:15 to 2:30 p.m.

False positive activation of cardiac catheterization laboratory for ST-segment elevation myocardial infarction – Tonga Nfor, M.D.

2:30 to 2:45 p.m.

Increased fluoroscopy time in percutaneous coronary intervention is associated with more complication and increased one-year mortality
– Mohamed Rahman, M.D.

Break

2:45 to 2:55 p.m.

Oral Presentation Session III – Sycamore

2:55 to 3:10 p.m.

Do low glucose tolerance test results predict an increased risk of fetal growth restriction?
– Merritt King, M.D.

3:10 to 3:25 p.m.

The effects of socioeconomic status and race on infant mortality rates in Milwaukee, Wisconsin
– Trina Salm Ward, M.S.W.

3:25 to 3:40 p.m.

Complications of pulmonary fiducial marker placement prior to image guided robotic radiosurgery – Jedediah Schaller, D.O.

Rieselbach Distinguished Paper Session II – Sycamore

3:45 to 4:15 p.m.

Impact of 24x7 in-hospital interventional cardiologists – Tanvir Bajwa, M.D.

Awards

4:15 p.m.

Aurora Health Care®

www.AuroraHealthCare.org

Aurora Health Care is a not-for-profit health care provider and a national leader in efforts to improve the quality of health care.
